

My name is Adam Kraft I'm a Planner for the Rail, Transit and Planning Division; Department of Transportation; Transit Section.

One of my favorite things to do is go out into the community visit with my transit agencies, the grantees, and hear their needs, hear their improvements in our process talk with the drivers and discuss with them how transit's improved their community and improved the mobility of disabled folks and the elderly. A typical day for me kind of varies depending on the time of season. In the spring we're working on getting grants together, grant applications and making sure all the required information is there. Toward the end of the season and in the fall we're busy delivering busses and doing on site inspections.

I'm Adam Kraft and I'm MDT.
