Chapter Ten

JUNKYARD CONTROL

9-1 RESPONSIBILITIES

Regulations for the control of junkyards in Montana can be found in **MCA** 75-10-501 to 542, *Motor Vehicle Recycling and Disposal*. Under these Codes, requirements are imposed on motor vehicle recycling and disposal (junkyards) and are administered through the Montana Department of Environmental Quality (MDEQ).

Although there are Federal (FHWA) requirements for junkyard control imposed upon MDT, the State requirements administered through MDEQ are more stringent than those required by FHWA. Therefore, MDT has deferred any obligation for regulating junkyards to MDEQ as the State statutory requirements for regulation are MDEQ's responsibility.
