

Montana Transportation Alternatives Program

Hwy 2 Ped Bridge – Malta

TA 36(30)

UPN 8699000

Project scope: The narrow Highway 2 bridge over the Milk River made accessing the north side of Malta difficult for non-motorized users. This project includes a new 10-foot wide, 239-foot single span pedestrian bridge across the Milk River. This provides a safe and convenient connection for non-motorized users between the area north of the Milk River to the rest of Malta. The project also includes: sidewalk connections, curb, ADA compliance, pedestrian lighting, guardrail, fencing, signing, striping, revegetation, reinforced soil slopes, and riprap.

Consulting Engineer: DOWL
Contractor: Battle Ridge Builders, LLC
Completed in 2018

Project costs:
Preliminary Engineering: \$442,530
Construction and Construction Engineering: \$1,683,017
