WIGEON Watershed # 16-Little Missouri River Basin Carter County, Montana

### LAND OWNERSHIP: BUREAU OF LAND RECLAIMATION (BLM)

## **BACKGROUND INFORMATION**

The Wigeon wetland was created to provide mitigation credits for wetland impacts associated with Montana Department of Transportation (MDT) roadway projects that have been constructed in Watershed #16. This wetland was designed by the Bureau of Land Management (BLM) in association with MDT to provide specific wetland functions including: nesting and brood rearing habitat for waterfowl; water for wildlife habitat; increased habitat diversity; water storage and retention; and creation of open water and emergent wetland types. Construction was completed in October of 1997 with the goal of creating a reservoir to provide nesting and brood rearing habitat for waterfowl; water constructed to collect surface water runoff from an intermittent tributary of Prairie Dog Creek. The site is located in Carter County, Montana directly north of Alzada. Close to 9 acres of aquatic habitat had developed at the site as of the final annual monitoring in 2006.

### WETLAND INHABITANTS

#### AMPHIBIANS AND REPTILES

Plains garter snake (Thamnophis radix) Painted turtle (*Chrysemys picta*) Northern leopard frog (*Rana pipiens*) BIRDS

DIKD 5	
American Avocet ( <i>Recurvirostra americana</i> ) <sup>1</sup>	Mallard (Anas platyrhynchos)
American Wigeon (Anas americanus)	Meadow Lark (Sturnella neglecta)
Barn Swallow (Hirundo rustica)	Northern Pintail (Anas acuta)
Blue-winged teal (Anas discors)	Red-winged Blackbird (Agelaius phoeniceus)
Bobolink (Dolichonyx oryzivorus)	Redhead (Aythya Americana)
Canada Goose (Branta canadensis)	Ring-necked Duck (Aythya collaris)
Earred grebes (Podiceps nigricollis)	Ruddy Duck (Oxyura jamaicensis)
Horned Lark (Eremophilia alpestris)	Savanannah Sparrow (Passerculus sandwichensis)
Gadwall (Anas strepera)	Spotted sandpiper (Actitis macularia)
Grasshopper Sparrow (Ammodramus savannarum)	Swallow (Hirundo spp.)
Greater Sage Grouse (Centrocercus urophasianus)	Upland Sandpiper (Bartramia longicauda)
Green-winged Teal (Anas crecca)	Wilson's Phalarope (Phalaropus tricolor)
Killdeer (Charadrius vociferous)	Willet (Catoptrophorus semipalmatus)
MAMMALS	

Deer (Odocoileus spp.) Raccoon (Procyon lotor)

Bolded species were observed during 2006.

**Ruddy duck** 

# WETLAND VEGETATION

### **Dominant wetland vegetation**

Five community types were observed

- Type 1- Big sagebrush/Blue gamma (Artemesia tridentata/ Bouteloua gracilis)
- Type 2- Foxtail barley (Hordeum jubatum)
- Type 3- Yellow foxtail /Foxtail barley (Chenopdium glauca/Hordeum jubatum)
- Type 4- Creeping spike rush (Eleocharis palustris)

Type 5- Quack grass/Creeping spike rush (Agropyron repens/Eleocharis palustris)

# Wigeon
