Transportation

# I 90 Bridges West of Alberton

## Public Involvement Plan

Montana Department of Transportation

### PROJECT OVERVIEW

The Montana Department of Transportation (MDT) is developing plans to remove and rebuild three bridges in the westbound lanes of Interstate 90 (I 90) west of Alberton in Mineral County. The three I 90 bridges carry Interstate traffic over:

- Old Highway 10 and Elizabeth Lane  
9 ½ miles west of Alberton
- Clark Fork River near Alberton  
Gorge approximately 8 ½ miles west  
of Alberton
- Clark Fork River near Cyr  
approximately 5 miles west of Alberton

The bridges were originally constructed in 1965 and although safe to travel on, rehabilitation and maintenance are no longer practical. The new bridges will serve Montana and the traveling public well into the future, requiring lower-maintenance, and providing safety improvements to meet anticipated transportation needs.

This project includes developing design plans to:

- Replace three bridge structures in the westbound I 90 lanes.
- Widen the structures to match the width of the interstate.
- Upgrade guardrails and drainage.

This document provides an overview of MDT's plans to involve the public in the development and design of the project.

### GOALS OF PUBLIC INVOLVEMENT

Public involvement activities for this project will:

- Raise awareness of MDT's plans to improve the bridges.
- Provide opportunities for the public to learn about the project and provide input that can be used to improve the design and construction.
- Establish relationships and lines of communication within the community, special interest groups, and river users.
- Identify and address public concerns related to design and construction of the project.

## KEY PROJECT MESSAGES

MDT's communication will be based on the following key messages:

- ✓ The Montana Department of Transportation is investing in long-term safety and operations improvements for the Interstate 90 bridges.
- ✓ The bridge improvements on Interstate 90 west of Alberton will be developed in phases over a multi-year planning process.
- ✓ The planning process will identify safety and operational improvements needed for the bridges to continue to service the traveling public, while balancing environmental and economic impacts within the project area.
- ✓ Public input from the local community and river users is important to the success of the project. MDT will engage the public to seek input during the project design process.

## PUBLIC INVOLVEMENT APPROACH

MDT's approach to public involvement is to engage key stakeholders and the public early and often in the process, build relationships, and encourage the sharing of project information and input opportunities within their communities.

Specific outreach activities will be targeted toward reaching the local community, recreationalist and river users. The project team will provide project information, input opportunities and updates during the design process.

- MDT's outreach activities include both tried-and-true (traditional) and online methods to increase public participation. Outreach activities will be backed by well-written materials and proven strategies for gathering input. Activities will be:
  - Timed with major project milestones.
  - Backed by well-written materials.
  - Implemented using proven strategies.

**PUBLIC INVOLVEMENT ACTIVITIES**

<b>Design Phase 1 (December 2021 - December 2022)</b>		
<b>Task/Activities</b>	<b>Timeframe</b>	<b>Description</b>
<b>Stakeholder database</b>	Ongoing  <i>Updated as new information is gathered (See Appendix).</i>	The stakeholder database will include businesses, property owners, emergency responders, local jurisdictions, agencies, schools, media, elected officials, community members, and motorists who have expressed interest in the project.  The database will be used to send project information and status updates at key milestones.
<b>Branding and logo</b>	January 2022	A logo, brand and color scheme will be developed to give the project a brand identity. This brand identity will adhere to MDT's brand standards guide.
<b>Talking points</b>	January 2022  <i>Updated as new information becomes available.</i>	Talking points will be developed that include: <ul style="list-style-type: none"> <li>• Answers to questions anticipated from the media and the public.</li> <li>• A one-page "at a glance" of the project's purpose and need, background and anticipated schedule.</li> </ul>
<b>FAQ document</b>	January 2022	A brief version of the talking points will be formatted as a frequently asked questions document and can be posted to the project website.
<b>Website</b>	January 2022	A project specific webpage will be developed on MDT's website and will provide a project overview along with the projects: <ul style="list-style-type: none"> <li>• Scope and schedule,</li> <li>• Contact information,</li> <li>• Supporting communication materials such as fact sheets, public meeting notification, and project updates.</li> </ul>

	<i>Updated at key milestones throughout the life of the project.</i>	The website will serve as a central location to manage and deliver content and updates regarding the project.
<b>Fact sheet</b>	January 2022	<p>A project fact sheet will be developed to provide an overview of the project, anticipated schedule, project location and contact information.</p> <p>The fact sheet will be used on the website, and as a handout at public meetings and other outreach activities.</p>
<b>News release</b>	January 2022	<p>A news release will be distributed to local media outlets to announce the project.</p> <p>A list of print and broadcast media is part of the stakeholder database.</p>
<b>Open house (in-person)</b>	February/March 2022	<p>A public open house will be held in Alberton. The purpose of the open house is to introduce the public to the project and gather input on the recommended options for bridge improvements.</p> <p>Up to fifteen (15) display boards will be created for the open house.</p> <p>All open house materials will be posted on the project website to allow stakeholders to get project information, ask questions and give comments.</p> <p>The project team will develop a detailed open house plan, distribute open house notifications, invite key stakeholders via phone calls, develop handouts, conduct and summarize the open house.</p>

<b>One-on-one walking outreach</b>	February/March 2022	The project team will visit key stakeholders, businesses and community centers near the project area to invite participation to the public open house.
<b>Newspaper advertisement</b>	February/March 2022	An advertisement will be placed in the Mineral Independent newspaper to announce the public open house.
<b>Social media</b>	February/March 2022	Project information will be posted on MDT's Facebook page to introduce the project and invite participation in the open house.
<b>Postcard</b>	February/March 2022	A postcard will be mailed out as an invitation to the open house. The postcard will be sent to the project database and to all residents and businesses within five miles of the project area.
<b>Key stakeholder meetings</b>	As Needed	<p>Key stakeholders and local jurisdictions will be identified and invited to participate in one-on-one meetings to discuss the project as needed.</p> <p>Key stakeholders could include:</p> <ul style="list-style-type: none"> <li>• Local officials (Alberton &amp; Mineral County)</li> <li>• Property owners</li> <li>• Montana Fish, Wildlife and Parks</li> <li>• Recreational businesses (fishing, rafting, kayaking)</li> <li>• Emergency responders</li> <li>• School districts</li> <li>• State leadership</li> <li>• Trucking industry</li> </ul>

		Comments gathered from the key stakeholder meetings will be summarized.
<b>Public inquiries response and summary</b>	<i>Ongoing</i>  <i>Respond as needed when inquiries are received.</i>	A phone number and email address will be provided on project materials for the public to call with questions and comments.  All public and media project inquiries and responses will be documented.
<b>Public outreach report</b>	Fall 2022 – Throughout Design Process	A final report will be prepared to document the outreach process and activities performed throughout the project design process.

## PUBLIC INVOLVEMENT TIMELINE

*Exact dates will be determined based on design milestones and are subject to change.*

## MANAGEMENT/ COMMUNICATION PROTOCOLS

### Communication protocols

---

- 1) RBCI will prepare all public involvement materials and send to Morrison-Maierle (M-M) for initial review and approval.
- 2) Once M-M has approved the deliverable, RBCI will send the deliverable to MDT (Project PM) with a cc to M-M.
  - o Necessary actions and deadlines will be included with all deliverables.
- 3) MDT Project PM will send the deliverable to the MDT Public Involvement Review Team.
- 4) Working with M-M, RBCI will address all of MDT's comments and submit the deliverable back to MDT for a final review.
- 5) MDT will respond to RBCI and M-M as necessary.
- 6) Once a deliverable has been approved, RBCI will coordinate with MDT to distribute to the target audience.

### Management protocols

---

- RBCI will take part in conference calls and planning meetings with the project team and MDT as necessary.
- MDT will attend public meetings, stakeholder meetings, and participate in media interviews as needed.
