OVERVIEW

The **Assign Page Setup Tool** command can be used to assign a page setup to multiple paper space layouts at once. This can be done to all layouts or by a selection of layouts from a list.

The **Assign Page Setup Tool** command is developed and provided by WisDOT.

USING THE COMMAND

1. Type **MDTApplyPageSetup** at the command line or press the **Assign Page Setup Tool** ribbon button.
2. The Assign Page Setup dialog box will open.
3. Select a page setup to be assigned from the Page Setup dropdown menu.
4. The Layouts list box will show the names of all paper space layouts in the drawing followed by the currently assigned page setup name (*Layout Name<<page setup name>>*).
5. Select one or more Layouts to assign the page setup to. (Use *ctrl-select*, *shift-select*, or the provided buttons to select/deselect layouts.)
6. Click "OK".
7. The page setup will be applied to the selected layouts, the Layouts list box will update, and the dialog box will display "Process Complete".
8. Repeat steps 3-6 for additional page setup/layout combinations, if desired, or click "Close" to exit.
