MONTANA
The Treasure State

A lot of Montana's treasure is still concealed in the gravel of placer bars and gulches or locked in her rugged granite vaults. But we have other treasures waiting for you and the world to share. Silver lakes, golden sunsets and emerald forests; sunny skies, wide prairies and towering mountains; stream-lined canyons and air-conditioned climate; breezes fresh with the scent of pine trees and sage-brush; and, best of all, real western hospitality.

OF COURSE we are glad to see you! We want you to have a glorious time. Get acquainted with our cowboys, ride the trails with our rangers and wranglers, pan some colors with our prospectors. They may tell you a few innocent stretchers but you will like them. We KNOW that you will enjoy our highways.

Here is wishing you the best of luck and a pleasant visit, so throw your hat on the floor and make yourself at home.
