

Welcome!

**9th Street NW
Reconstruction Project**

Open House

Project Timeline

2021 - 2022:

- Project initiation, control, topographic, and cadastral surveys, environmental analysis, right-of-way (R/W) research, preliminary design.

2023

- Project scope development for final design & R/W.

2024

- Detailed project design.

2025

- Final design, public open house, and right-of-way acquisition.

2026

- Anticipated construction start.

**WE ARE
HERE**

Design Elements

Replace deteriorated pavement

Upgrade storm drains

Upgrade signal at 9th Street NW and Northwest Bypass

Install new curbs, gutters, and Americans with Disabilities Act (ADA)-compliant curb ramps

Install or repair sidewalks for better accessibility

Replace trees affected by construction

Add new boulevard trees

Parking Impacts

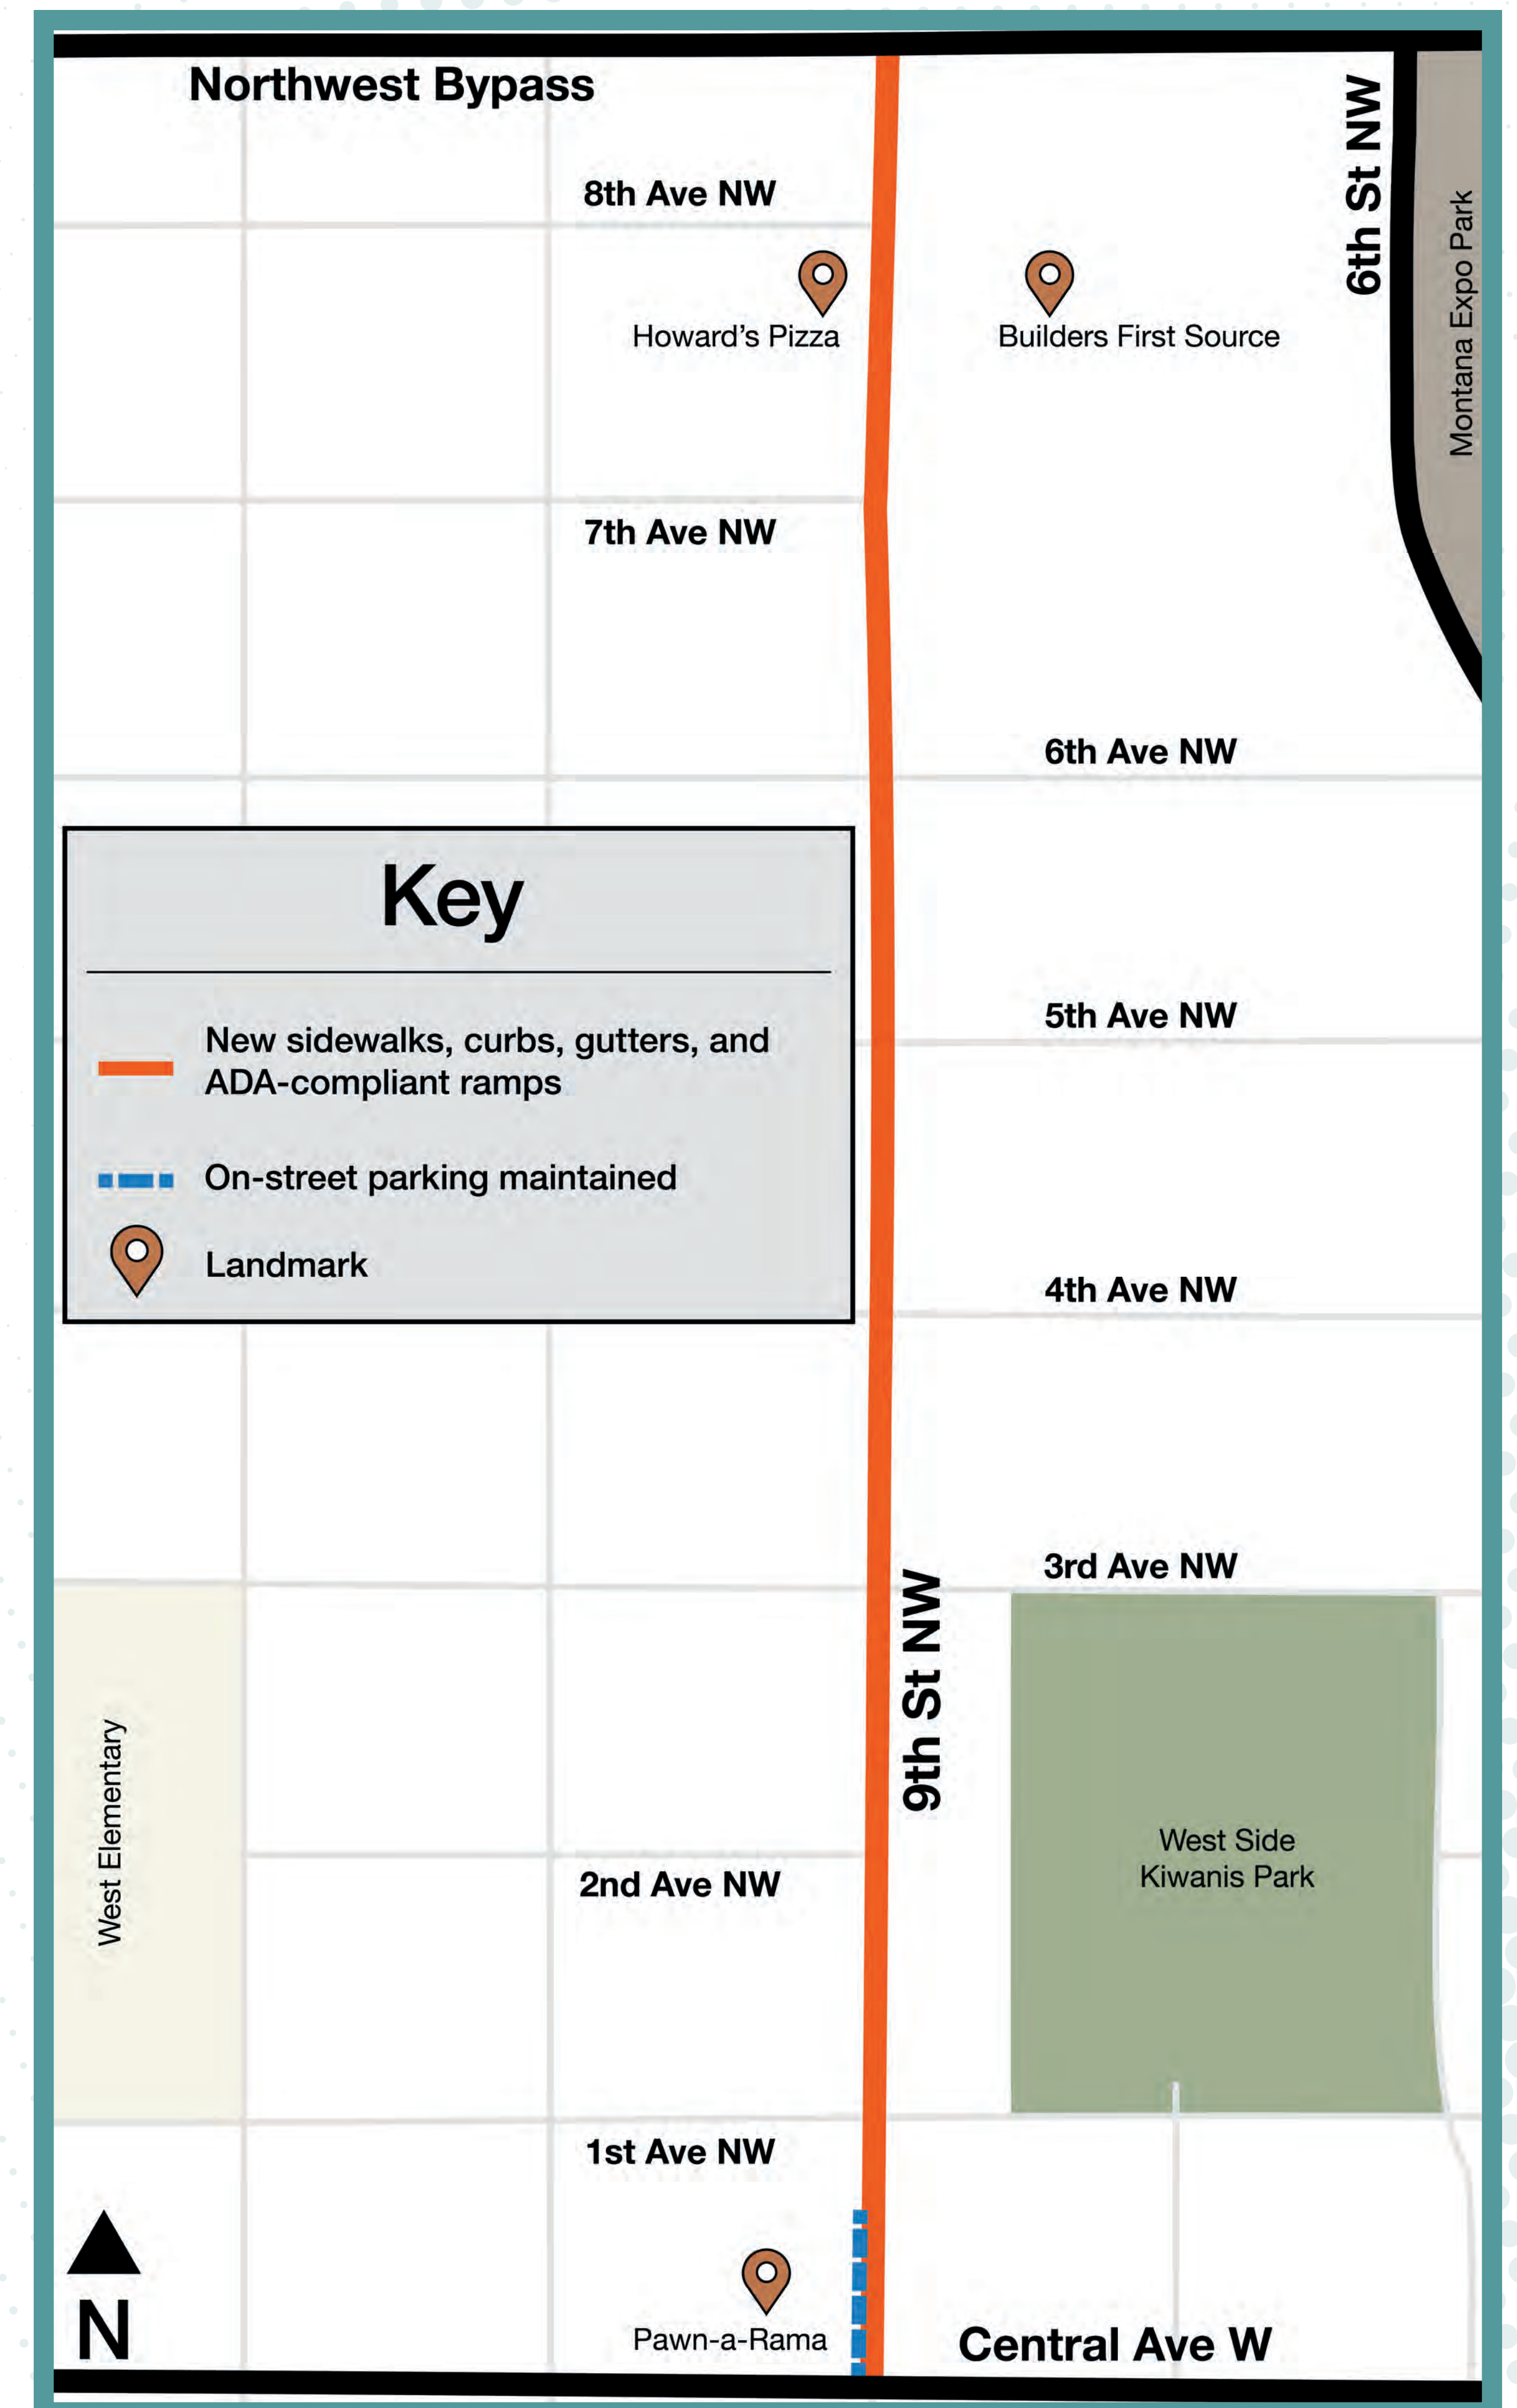

To enhance pedestrian safety, new sidewalks, curbs, gutters, and ADA-compliant curb ramps will be installed in the public right-of-way.

Informal off-street parking will be eliminated. There is not enough space to safely accommodate both parking and pedestrian infrastructure.

Driveway access will be modified in some areas to reduce conflicts between vehicles and pedestrians.

Thank You!
