Old Highway 312/Five Mile Road Roundabout: Concrete Installation Underway

The Montana Department of Transportation (MDT) would like to provide the public with a status update on the construction taking place on Old Highway 312 and Five Mile Road. Concrete work will take place on the new single-lane roundabout on Old Highway 312 and Five Mile between Wednesday, August 19 and Tuesday, August 25. Drivers are advised to travel safely and be prepared for reduced speed, flaggers, workers, and one-lane traffic during non-peak hours. Over the next two weeks, the center of the roundabout will be landscaped, signs will be installed, and pavement markings will be painted. Please consider taking an alternate route, when possible.

Work zone safety reminder: Remember to manage the Three S's of work zone safety: speed, space, and stress. Slow down when approaching all work zones. Follow posted speed limits, especially within construction zones, and try to maintain a consistent speed with the traffic flow. Lastly, don't resume normal speed until you see roadway signs indicating it's safe to do so.

The Montana Department of Transportation together with its construction contracting partners continue to take the COVID-19 pandemic very seriously. Construction projects on Montana's roads and bridges are considered an "essential" operation and will continue moving forward as scheduled in 2020. Construction workers will continue several measures to help keep employees, contractors and the public safe during the construction season. Some of the measures include following social distancing and good hygiene guidelines, and not reporting to work if showing symptoms of illness. For more information visit <https://covid19.mt.gov/>
