Department of Transportation

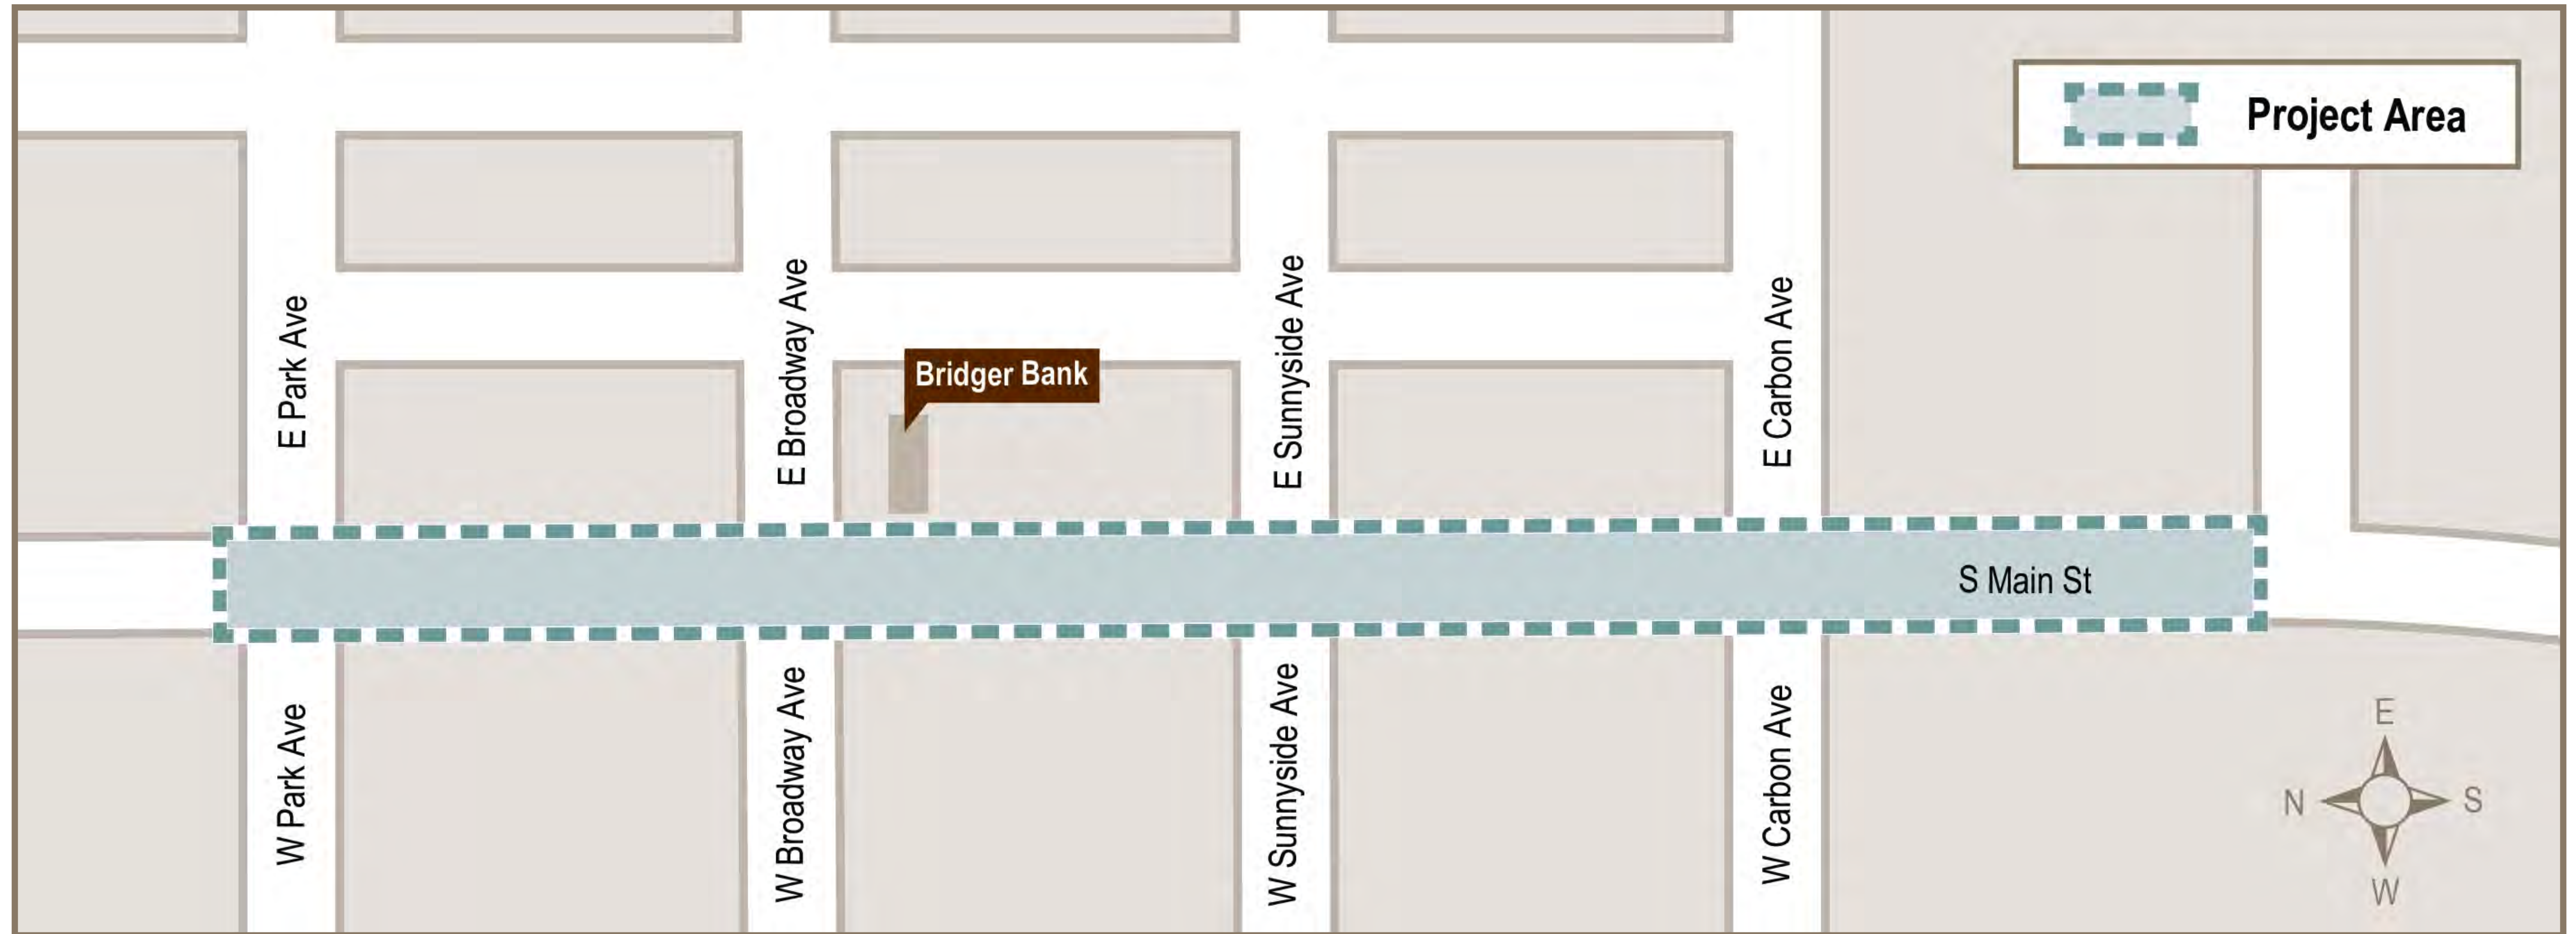

# OPEN HOUSE

---

The Montana Department of Transportation (MDT) and partner Riverside Contracting, Inc., are hosting an open house to share information about the Bridger ADA Upgrades project.

# PROJECT MAP

# PROJECT OVERVIEW

MDT is partnering with Riverside Contracting Inc. to complete Americans with Disabilities Act (ADA) upgrades along Main Street from Park Avenue, extending through town and ending south of Carbon Avenue.

The Bridger ADA Upgrades project is a part of MDT's effort to improve pedestrian facilities state-wide. These improvements will bring sidewalks into compliance with the revised ADA standards, allowing greater access for everyone.

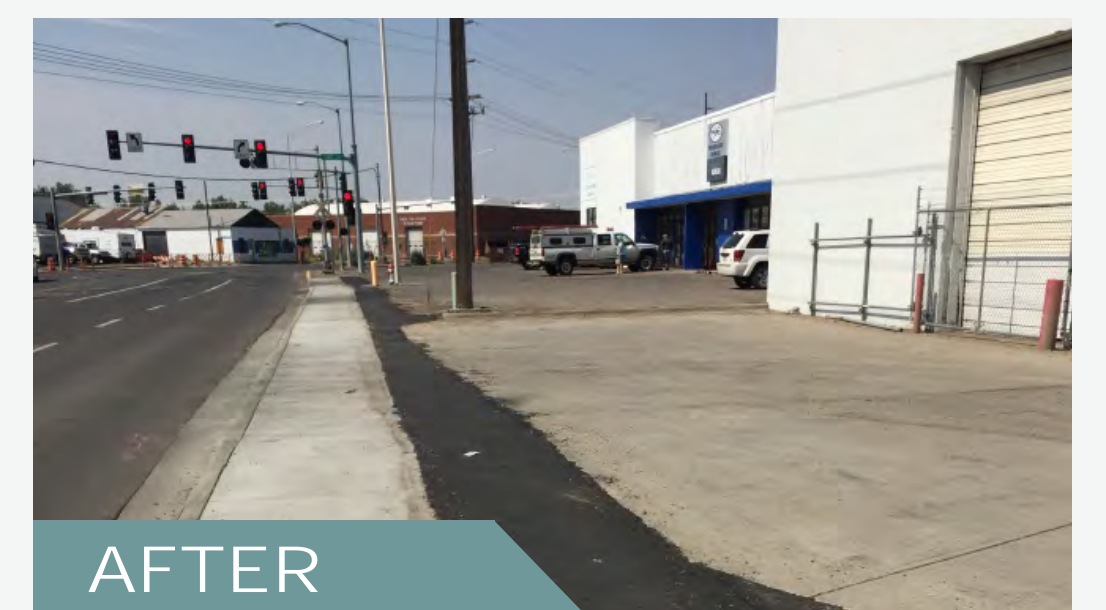

## 27 ADA Corner Ramps

## 16 Reconstructed Approaches

## Approximately 1,200 square feet of New Sidewalk

## New Signage

\*Pictures show examples of the type of work that will be done.

# PROJECT TEAM

This is a design-build project, which means Riverside Contracting Inc. and DOWL have partnered up to complete this project for MDT. Design-build projects can typically be delivered on a faster timeline than standard project delivery formats.

# MONTANA ADA TRANSITION PLAN

## ABOUT THE MONTANA ADA TRANSITION PLAN

In 2021, MDT updated its ADA Transition Plan, which provides an accessible transportation system within the state. Periodic updates of the plan are beneficial to ensure continuous improvement by incorporating new technologies, streamlined processes, and modernized approaches that best meet MDT's needs and operating conditions.

The plan aims to establish a consistent approach for accommodating disabled individuals by identifying methods to assist MDT in complying with ADA regulations and removing accessibility barriers throughout the state. The plan is not intended to identify specific projects or barrier locations.

# WHAT TO EXPECT – PROJECT SCHEDULE

-  Construction is expected to begin in June and continue through the summer, weather and other factors permitting.
-  The design-build project template is designed to reduce the time required to finish these upgrades.
-  Community events, such as Bridger Days, are taken into consideration when developing the construction schedule.

# WHY THIS CORRIDOR?

MONTANA ADA TRANSITION PLAN PROJECTS ARE SELECTED  
BASED ON A NUMBER OF FACTORS INCLUDING:

Degree of  
Noncompliance

Number of  
Noncompliant  
Features

Safety

Proximity to Other  
Construction  
Projects

Public  
Feedback

# WHAT TO EXPECT

Access to businesses and residential properties will be maintained at all times.
