

## Public Discussion of Project to Widen Roadway and Replace Bridges on Montana Highway 13 Northeast of Wolf Point

---

The Montana Department of Transportation (MDT) is hosting an open house to discuss the second phase of a project to improve 8.6 miles of roadway and replace two bridges on Montana Highway 13 (MT-13) on the Fort Peck Indian Reservation.

**The open house will be held in Wolf Point on Wednesday, April 10, from 5 to 7 p.m. in Room 119/120 of the Fort Peck Community College (301 Benton Street).** Project team members will be available to discuss the project.

The project begins at the intersection of Secondary Highway 250 and extends north for 8.6 miles to the intersection of County Road 2040.

The first phase of the project is replacement of the Box Elder Creek Bridge, which is planned for construction in 2019. The second phase is in the design stage and proposes widening the roadway from 24 feet to 28 feet, including 2-foot shoulders. The road will also be shifted to flatten the tight horizontal curves and the abrupt vertical curves. The North Fork of Box Elder Creek Bridge, located near reference post 22, will be replaced with a large culvert.

For more information, visit the project website — [mdt.mt.gov/pubinvolve/jctsec250north](http://mdt.mt.gov/pubinvolve/jctsec250north) — or contact Glendive District Administrator Shane Mintz at (406) 345-8212 or Project Design Engineer D.J. Berg at (406) 444-2067.
