

You're Invited! Lewistown Area Bridges-DAR Structures Project **OPEN HOUSE**

The Montana Department of Transportation (MDT) and its partners, Sletten Construction and engineering design consultant Morrison-Maierle are preparing to replace 11 aging bridges through the Lewistown Area Bridges-DAR Structures project.

Eight bridges are located on Montana Highway 81 (MT 81) between the intersections with Montana Highway 80 (MT 80), west of Denton, and US Highway 191 (US 191), north of Lewistown. The other three structures are located on Secondary Highway 400 (S 400) southwest of Hobson, Secondary Highway 238 (S 238) southeast of Lewistown, and Secondary Highway 297 (S 297) north of Shawmut.

Join us to learn more about the project and the bridges to be replaced, ask questions, and provide feedback directly to the project team.
