

## NORTH 7TH AVENUE & GRIFFIN DRIVE BOZEMAN

# CONSTRUCTION AHEAD

The Montana Department of Transportation (MDT) and CK May Excavating are improving a busy intersection at North 7th Avenue and Griffin Drive north of Interstate 90 (I 90) in Bozeman. This project will reduce delays and enhance traffic flow and safety.

### Reconstruction will include the addition of:

- New lanes.
- Durable concrete pavement.
- ADA compliant sidewalk.
- Bicycle accommodations.
- Curb, gutter, and storm drainage.
- Traffic signals and lighting.

Additional work will include improving approaches and relocating utilities.

### Why is this project needed?

This intersection frequently sees excessive congestion, traffic stacking, and wait times. The project will add new lanes and other improvements to enhance safety while decreasing congestion and wait times. The project will also reduce long-term maintenance costs by using concrete pavement and improving drainage. Pedestrian and bicycle mobility will be upgraded by adding sidewalks that connect to existing pathways.

### What to expect during construction

Construction is expected to begin in June 2023 and be completed in late fall. For the safety of the public and workers, MDT encourages motorists to plan ahead, allow for extra travel time, slow down, and use caution when traveling through the work zone.

North 7th Avenue will remain open with single-lane traffic in each direction during construction.

Motorists may encounter:

- Reduced speed limits.
- Intermittent lane closures.
- Flaggers or temporary signals to direct traffic.
- Detours to direct traffic away from the intersection.

**SLOW FOR THE ZONE.**  
**GIVE WORKERS A BRAKE.**

Stay alert.  
Better roads ahead!
