

**NORTH 7TH AVENUE
& GRIFFIN DRIVE**
BOZEMAN

Welcome to the North 7th Avenue & Griffin Drive – Bozeman public open house.

The Montana Department of Transportation (MDT) is developing improvements to the North 7th Avenue & Griffin Drive intersection in Bozeman just north of Interstate 90 (I 90).

PROJECT TEAM

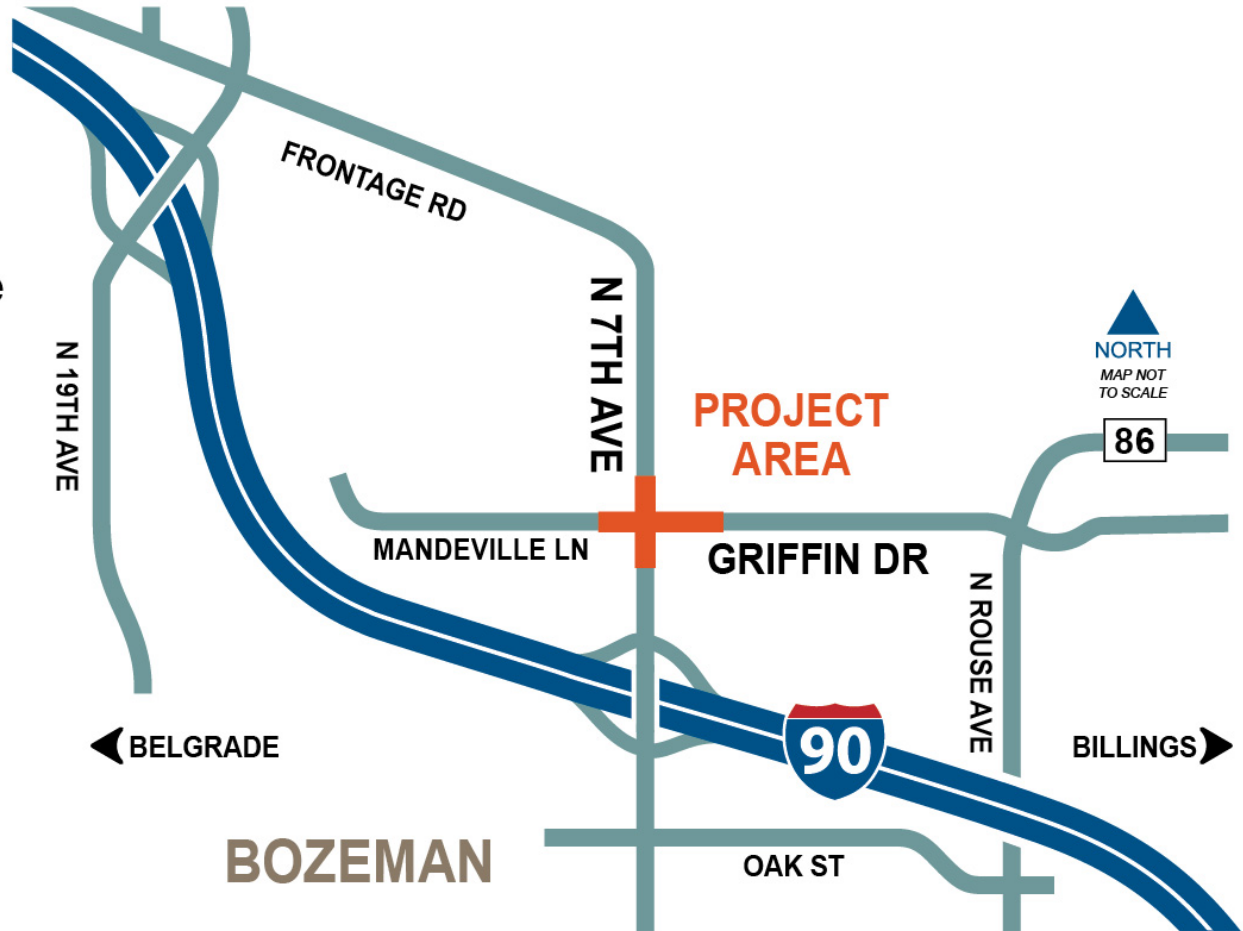

RBCI

PROJECT DESCRIPTION

The North 7th Avenue & Griffin Drive — Bozeman project will reduce delays and enhance traffic flow and safety features at the intersection of North 7th Avenue, Griffin Drive and Mandeville Lane.

PURPOSE AND NEED

This intersection frequently sees excessive congestion, traffic stacking, and wait times. It's common for motorists to wait through several light cycles, especially for traffic turning left onto Griffin Drive from North 7th Avenue. There are also limited sidewalks near the intersection, making it difficult to travel as a bicyclist or pedestrian.

PLANNED IMPROVEMENTS

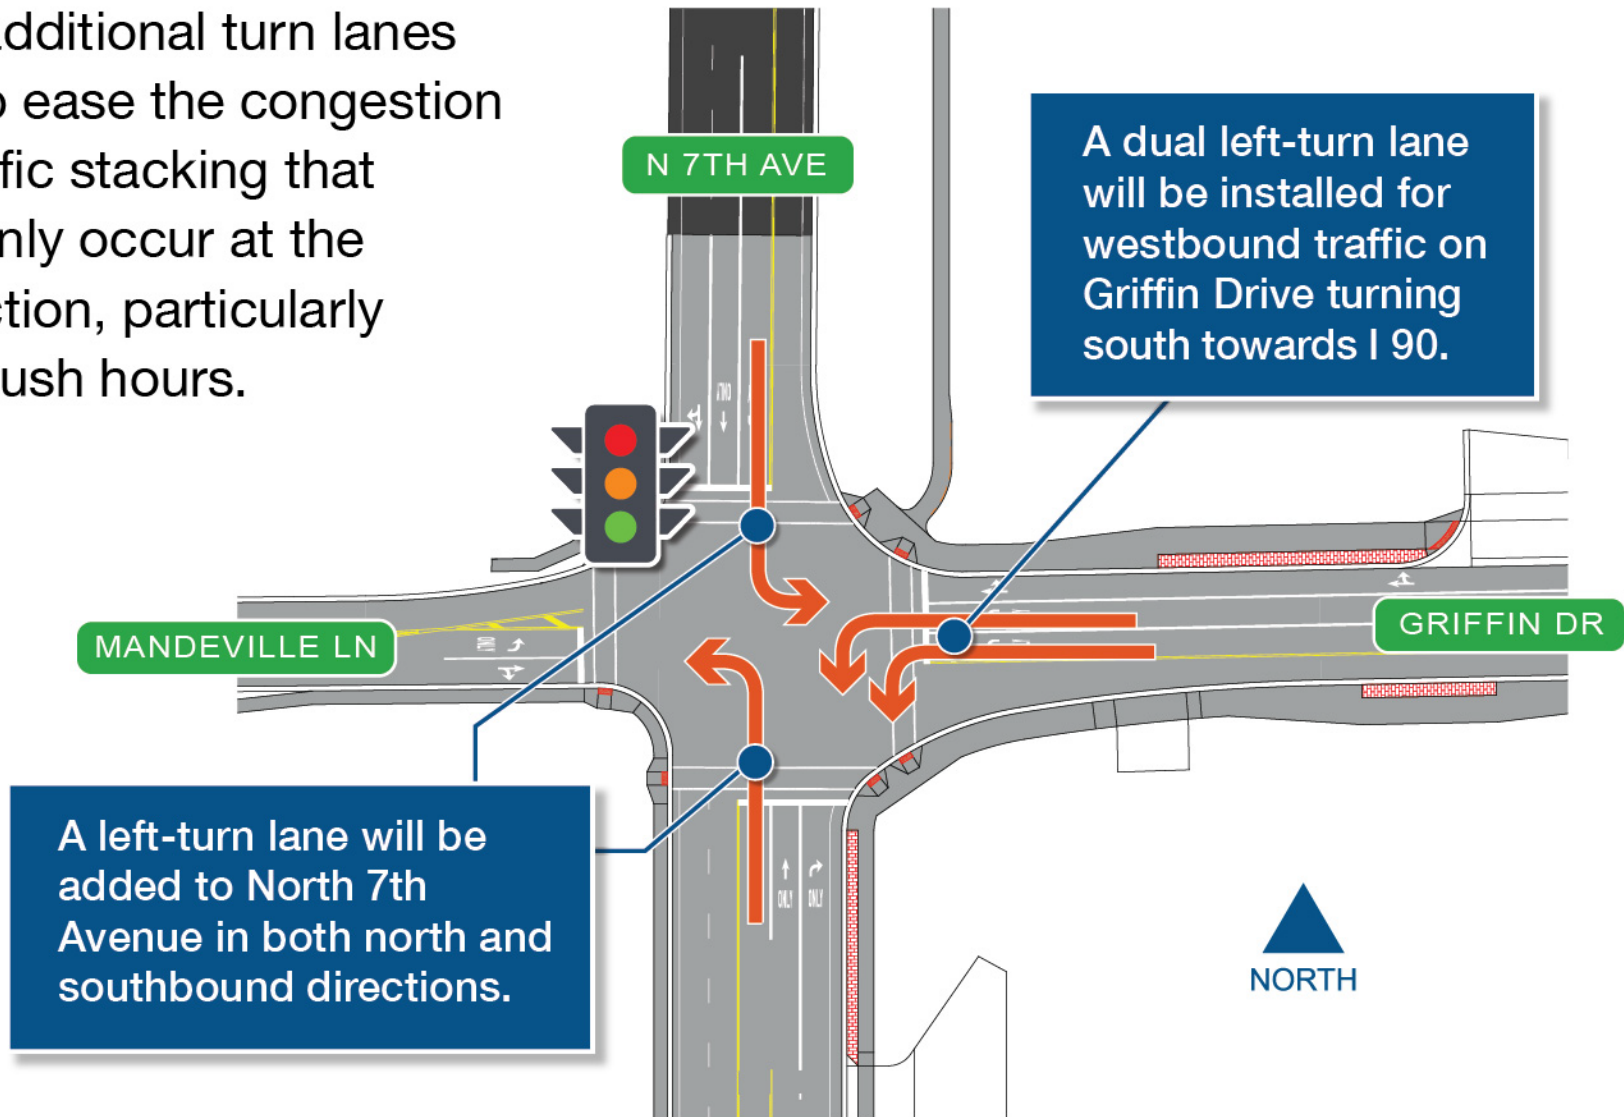

The project includes reconstructing the intersection of North 7th Avenue, Griffin Drive, and Mandeville Lane.

This project will add:

- New turn lanes.
- Durable concrete pavement.
- ADA-compliant sidewalks.
- Bicycle accommodations.
- Curb, gutter, and storm drainage.
- Traffic signals and lighting.

BENEFITS OF ADDED LANES

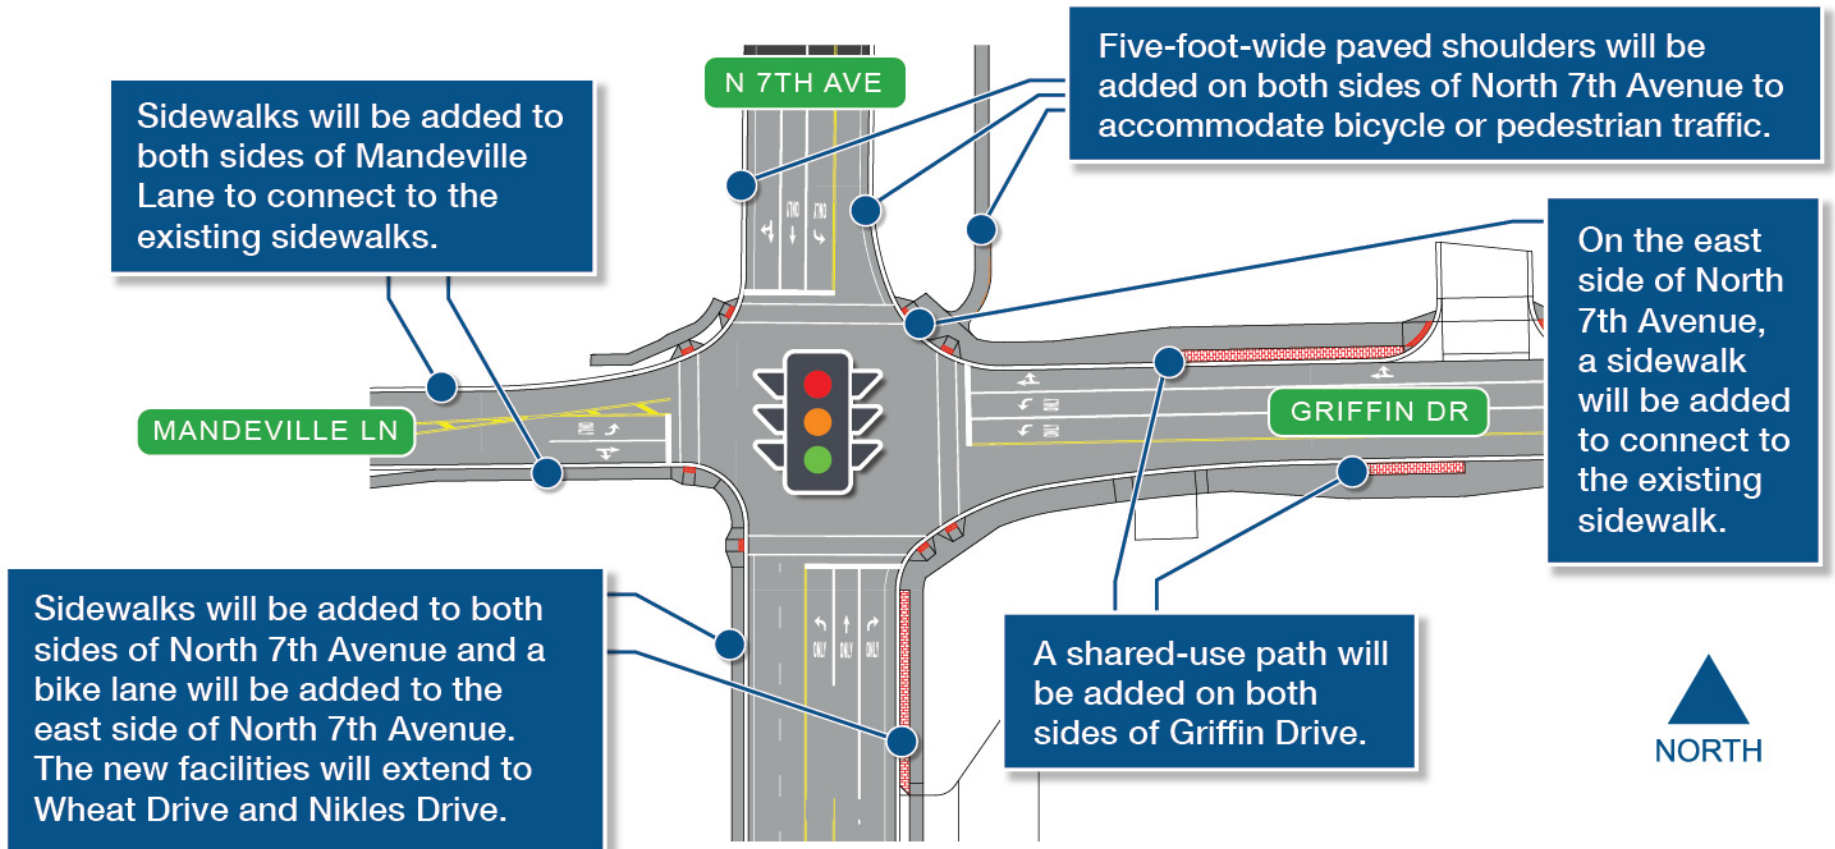

These additional turn lanes will help ease the congestion and traffic stacking that commonly occur at the intersection, particularly during rush hours.

SIDEWALK AND SHARED-USE PATHS

Sidewalks and shared-use paths will be added according to the specific needs of each leg of the intersection to improve mobility for bicyclists and pedestrians.

LOCAL COORDINATION

MDT has been working with emergency responders, utility companies, and school transportation services to ensure critical services continue throughout construction.

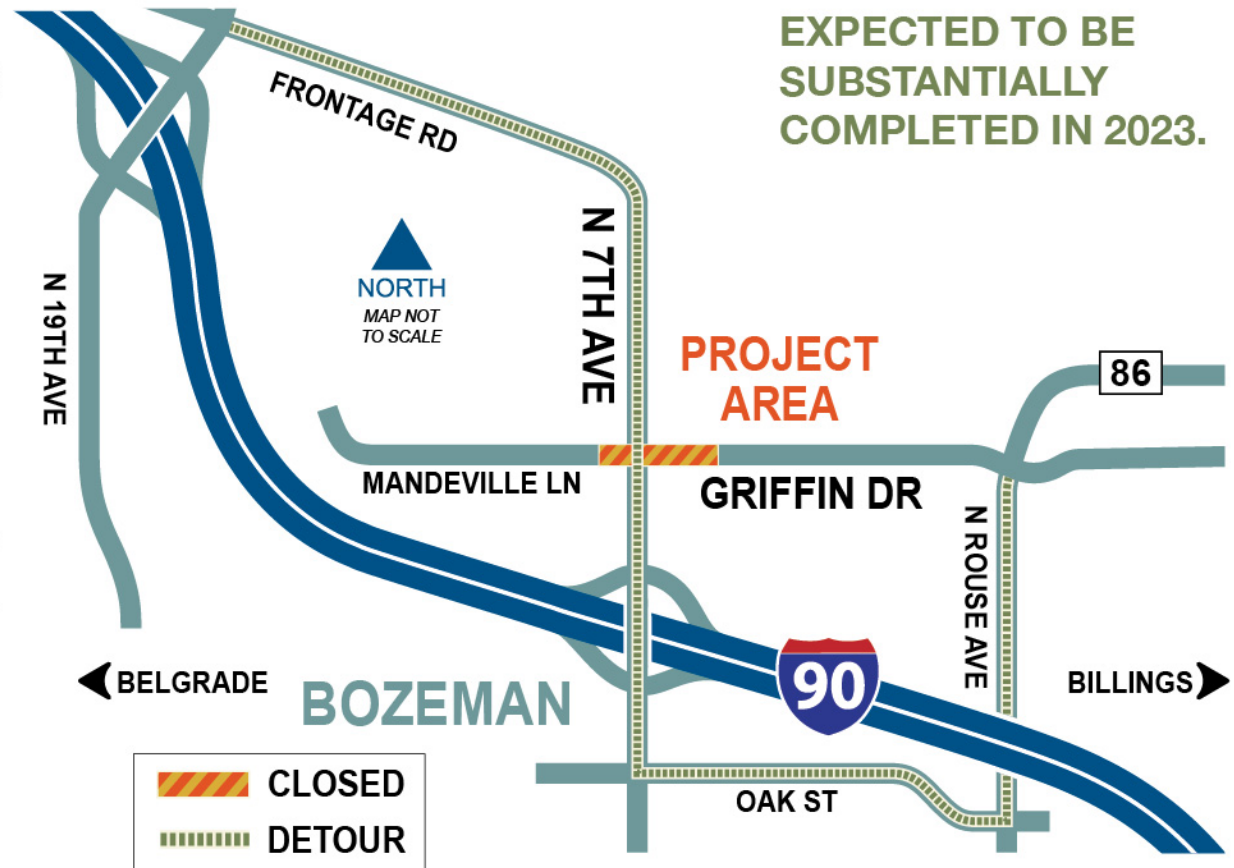

WHAT TO EXPECT DURING CONSTRUCTION

During construction, motorists should expect:

- **North 7th Avenue** will remain open with single lane traffic in each direction.
- **Griffin Drive** is anticipated to be closed for approximately 30 days to install storm drains and new surfacing. A detour using Rouse Avenue and Oak Street will be used during this phase.
- Flaggers and temporary signals will direct traffic.
- Businesses will remain accessible.

CONSTRUCTION IS EXPECTED TO BE SUBSTANTIALLY COMPLETED IN 2023.

BUSINESS ACCESS

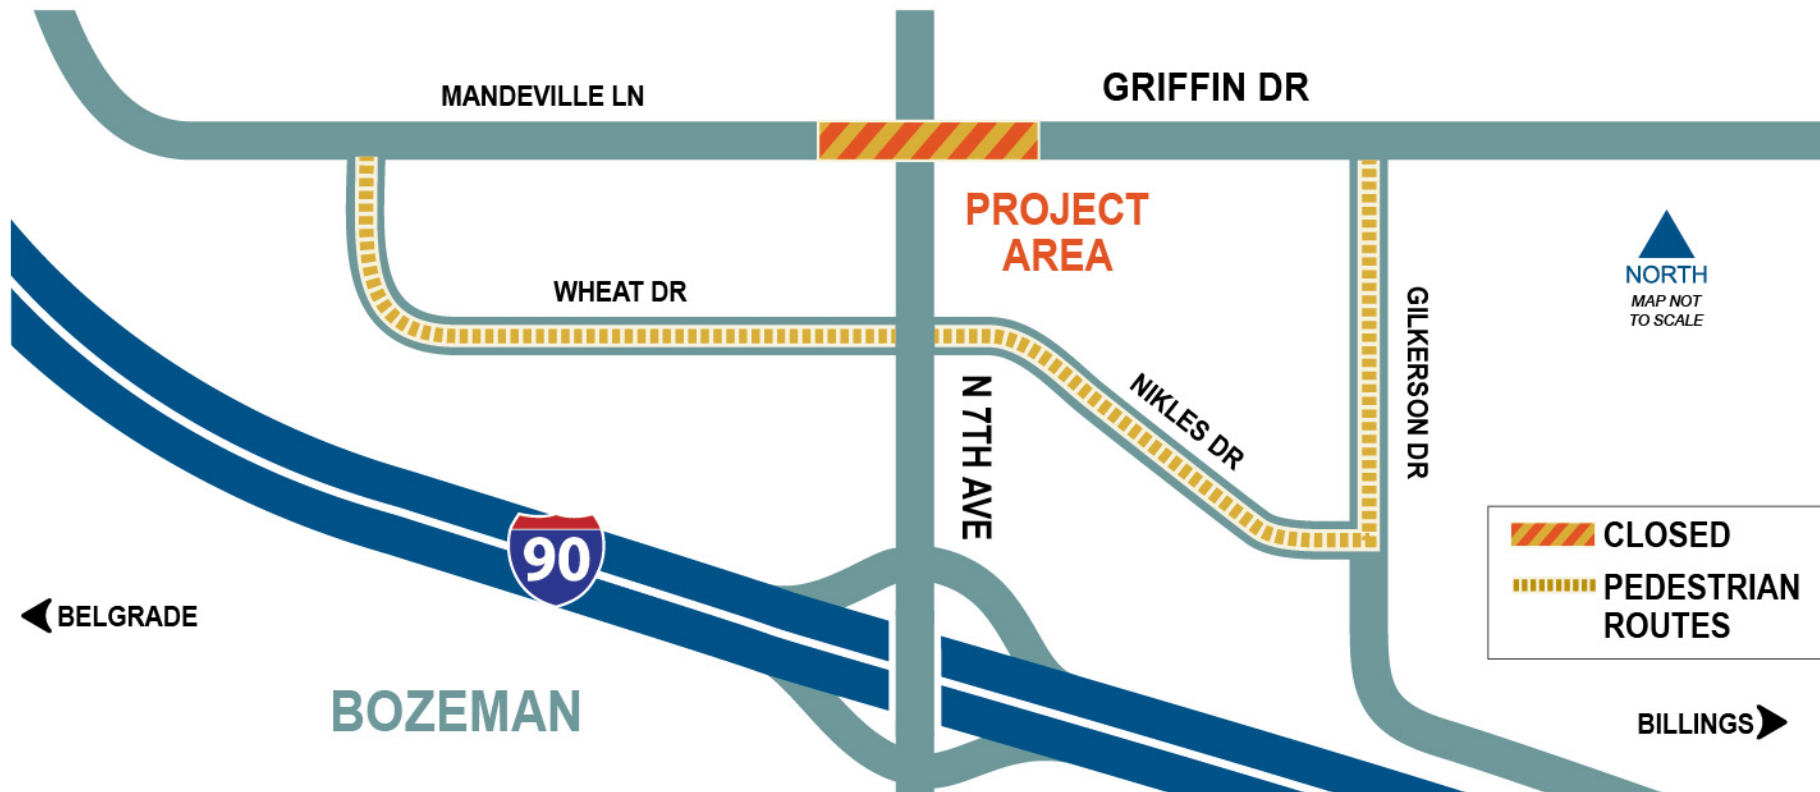

While construction is taking place, businesses in the project area will remain accessible. There may be times during road closures that motorists will need to use an alternate access to reach certain businesses. Signage will direct traffic to access points.

PEDESTRIAN ROUTES

During construction, pedestrians and bicyclists should use an alternate route, such as Wheat Drive, Nikles Drive, or Gilkerson Drive.

STAY INFORMED

Stay informed with the latest project information.
