

PROJECT IMPROVEMENTS

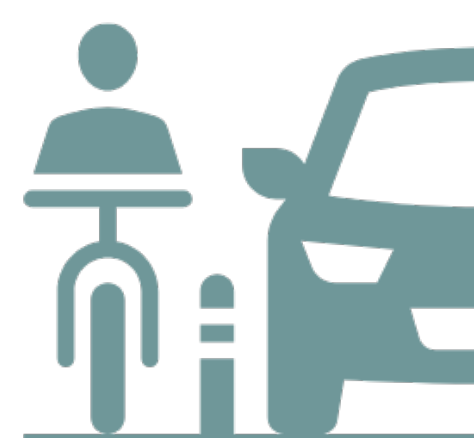

Widening Reserve Drive from Hutton Ranch Road to Whitefish Stage Road from three to five lanes.

Adding a center turn lane.

Replacing the Stillwater River Bridge deck, widening it consistent with the roadway including sidewalks on each side.

Adding an 8-foot shared-use path on the north side and a 5-foot sidewalk on the south side for separated pedestrian and bicycle mobility and safety.

Adding curbing and a storm drain system.

Reconstructing half a mile of Whitefish Stage Road north of the intersection with West Reserve Drive to a 3-lane configuration by adding a center turn lane and curbing and drainage.

INTERSECTION IMPROVEMENTS INCLUDE:

- **Dedicated turn lanes.**
- **Signal upgrades.**
- **Concrete surfacing.**
